

LUCKY MCGEE'S SUPERSLICE SWIRL

Lucky McGee, had only one job from the Leprechauns Eldar committee and that was to watch the rainbow and ensure the safety of its treasure locations. Now Lucky is a very social leprechaun lad and it's easy to get caught up in all the babble and bits with the other Leprechauns. Who wouldn't want to hear all the gossip and rumors surrounding Leprechaun hill and its villages.

Unfortunately, Lucky has gone and lost his rainbow and he is looking to you to help him find it. Spin Lucky's SuperSlice Swirl and win rainbow coins that rebuild Lucky's lost rainbow. Along the way you can choose to collect hidden treasures such as Lucky's Pachinko and Free Spins. If you completely rebuild Lucky's rainbow, he will award you a chance at the pot at the end of the rainbow in Lucky's Rainbow Spins, awarding up to 25,000x your bet.

The game uses our patent pending SuperSlice™ wheel, offering 2-12 dynamic slices on every spin. It couldn't be easier, spin the wheel, see the number of symbol slices added and watch if you are rewarded by the luck of the leprechauns. More slices mean a higher chance for wins while a lower number of slices mean larger prizes. But for lucky wins, avoid the empty slices!

SUPER SLICE™

The patent pending SuperSlice® engine delivers dynamic slices to the swirly wheel, between 2 to 12, so players never know how many slices or what those slices will hold. Perhaps it's 2 slices with high symbols for a guaranteed win or one with the three lucky pots that collect rainbow coins. But whatever you do, be sure to miss the empty spaces as they don't award anything.

Slice Examples:

GAME FEATURES

Lucky's Windy Respin

On any spin, the wind can kick up and blow away losing slices from the swirly wheel. These empty slices are replaced and a guaranteed win is given. On top of that, Lucky gets so happy that he gives you a multiplier on top of your win, up to 1000x.

Lucky's Coins

Lucky sometimes is nice and pitches in with rainbow coins to help you rebuild the rainbow quicker. That Lucky sure is a nice Leprechaun!

Lucky's Pachinko

If you collect enough rainbow coins and build the rainbow past Lucky's Pachinko cloud, you can choose to activate the game or you can wait to collect more coins and shoot for other features. Once the rainbow passes the cloud, it's always available for you to trigger when you want. If you trigger you are taken to Lucky's Pachinko where a board randomly fills with multipliers, including doubles or triples, that upgrades all the values and awards an extra throw. First though, you have to choose your Leprechaun. Choose Lucky or one of his friends and see how many Pachinko coins you get to throw. Up to 5 coins are available if you choose right. Upon activating Lucky's Pachinko, the rainbow decreases and you need to collect more rainbow coins to trigger again.

GAME FEATURES

Lucky's Free Spins

If you collect enough rainbow coins and build the rainbow past Lucky's Free Spins cloud, you can choose to activate the game or you can wait to collect more coins and shoot for Lucky's Rainbow Spins. Once the rainbow passes the cloud, it's always available for you to trigger when you want. If you trigger Free Spins, it's Leprechaun fireworks time and you join the Leprechauns in a party. Spin the Free Spin wheel and if the Leprechauns like you, you can win up to the max number of slices, spins and win multiplier. All numbers won are locked for the entire free spins. Upon activating Lucky's Free Spins, the rainbow decreases and you need to collect more rainbow coins to trigger again.

Lucky's Rainbow Spins

If you collect enough rainbow coins to activate Lucky's Rainbow Spins, then you have been very helpful to Lucky and can be awarded up to 25,000x your bet. Trigger Lucky's Rainbow Spins and it's all about the rainbow. With luck you can upgrade each colour of the rainbow, increasing multipliers in each upgrade and spin until you hit the collect pot. Collect as many rainbow multipliers as you can for your chance to win up to 25,000x your bet and find Leprechaun riches.
