SUPER SLICE®

Rings

There is no doubt that the most well-known and infamous pirate of all time is Blackbeard. He terrorized the Caribbean for years before his eventual death in 1718. Three hundred years later, his massive, hidden fortune is still lost to history. What wasn't known was that Blackbeard left a secret compass of rings that can lead a lucky treasure hunter in the direction to the infamous and massive treasure.

Who will find the treasure chest and dive deep in the ocean to find hidden treasure. Do not fret matey, treasures abound along the way with multipliers galore in the base game up to 25x your wins but if Blackbeard's compass shows you the way, multipliers are collected, awarding up to 25,000x your bet.

The game uses our patent pending SuperSlice® wheel in a new engine called Rings offering 4 dynamic SuperSlice® wheels spinning with up to 2-16 slices for a combined display of up to 64 symbol and multiplier slices. On top of that on any full symbol winning spin the fourth SuperSlice® Ring award a multiplier up to 25x your symbol win.

SUPER SLICE®

The patent pending SuperSlice® Rings engine delivers dynamic slices to the four different wheels, each displaying between 2 to 16 slices, so players never know how many slices or what those slices will hold. This shows the player as little as 8 slices and up to 64 different symbols and multipliers where each spin is unique and exciting

DIRECTIONAL BETTING

Activate any direction to increase your odds of wins and triggering free spins. Choose to activate 2, 3 or 4 directions in any configuration, building off the Go West default direction. The more directions you choose the better your chance for more consistent wins. Its completely up to you the directions you want to travel to find Blackbeard's treasure!

WIN MULTIPLIERS

Hit three of the same symbols in any way finder on the wheel and in any active bet direction or two similar symbols with a wild and this powers-up Blackbeard's outer multiplier wheel which then spins and stops to award up to an 25x multiplier on your way finder rings. More active directions means a greater chance of finding treasure.

BLACKBEARD'S TREASURE FREE SPINS

Watch those wilds, as any wild, at the completion of a spin can randomly turn into a Blackbeard treasure chest. If three wilds transform into treasure chests anywhere on the wheels, after the completion of a spin, regardless if they are within a directional way finder or not, you trigger the Blackbeards Treasure Free Spins. 10 free spins are awarded and you dive to the depths of the ocean to spin the treasure compass and find your chance to find Blackbeards lost treasure.

Just as in the base game, three similar symbols causing a win in any active directional way finder triggers the outer multiplier wheel. Any multipliers appearing on the inner three wheels land in an active way finder, is collected. At the end of the free spins, the entire win for free spins is multiplied by the collected multiplier for your chance at treasures up to 25,000x your bet. Free spins are re-triggerable.
